SUMMARY

I am a fresh graduate who developed strong skills in both front-end and back-end technologies while working in collaborative, fast-paced environments. Proven ability to build, maintain, and optimize efficient, scalable web applications. Also knowledgeable in computer troubleshooting and proficient in Microsoft Office tools. Currently seeking to transition into a new field, aiming to leverage technical expertise and problem-solving abilities to contribute effectively across diverse roles.

WEB PROJECTS

LEMERY COLLEGES ALUMNI INFORMATION AND GRADUATE CREDENTIALS REQUEST MANAGEMENT SYSTEM

<https://alumni.lemerycolleges.com>

- Designed and implemented a web-based system for managing alumni records and processing graduate credential requests.
- Utilized jQuery for dynamic form handling, UI interactions, and real-time validation.
- Integrated a responsive frontend with Bootstrap and developed backend logic using PHP and MySQL.
- Built an admin dashboard with real-time analytics for monitoring requests and system activity.
- Successfully deployed and currently in use by Lemery Colleges, enhancing efficiency in alumni and registrar operations.

LEMERY COLLEGES OJT HOURS TRACKING SYSTEM

- Built a full-stack system to monitor student OJT hours with coordinators verification and progress tracking.
- Used Laravel for backend, ReactJS with InertiaJS for a seamless SPA experience.
